J-STAR

Journal of Sciences, Technology and Arts Research

A Scholarly Journal

Manila, The Philippines

J-STAR is a peer reviewed journal published annually by the National University Research and Innovation Office, National University- Manila, the Philippines. The aim of this journal is to provide a venue for researchers, both students and teachers, to share their views, empirical studies, theories, and brief research reports related to sciences, technology, and arts. All articles are published in English.
